1 Tested Version and Books used for the Validation

1.1 Packages Used

- ‘sasLM’ version: 0.6.4
- ‘SAS’ version: 9.4 Licensed and University Edition
- ‘car’ version: 3.0.11
- R version: R version 4.1.1 (2021-08-10)

The ‘car’ package is not necessary for ‘sasLM.’ It is used for the comparison of the results.

If you see any difference between ‘car’ and ‘sasLM’, ‘SAS’ results coincide with ‘sasLM’, not with ‘car’.

Before ‘sasLM’ is available on CRAN, you can download using the following command in R.

```
install.packages("sasLM", repos="http://r.acr.kr")
```
