

Package ‘isnullptr’

October 13, 2022

Title Check if an ‘externalptr’ is a Null Pointer

Version 1.0.1

Description Check if an ‘externalptr’ is a null pointer.

R does currently not have a native function for that purpose.

This package contains a C function that returns TRUE in case of a null pointer.

Depends R (>= 3.0)

License GPL-3

Encoding UTF-8

LazyData true

RoxygenNote 6.0.1

NeedsCompilation yes

isnullptr	1
Index	3

isnullptr	<i>Check if an ‘externalptr’ is a null pointer</i>
-----------	--

Description

isnullptr checks if an object of type ‘externalptr’ is a null pointer.

Usage

```
isnullptr(pointer)
```

Arguments

pointer object of type 'externalptr'

Value

TRUE if null pointer, FALSE otherwise

Examples

```
isnullptr(new("externalptr"))  
isnullptr("any_data")
```

Index

`isnullptr`, 1
